

Cobble

Ash Cobble

Sunset Stone Cobble is all about *romance*.

With irregular shapes and broad variations in sizes, Sunset Stone Cobble is hard to distinguish from its natural stone counterpart. It conjures up images of sun-bathed villas, cottages and cantinas.

There's a reason it's one of our most popular profiles. Cobble reinforces romance wherever it's used.

INSTALLATION

Sunset Stone's Manufactured Stone Veneer installation involves preparing the surface, applying mortar, and then placing the stone veneer. The installation process may vary depending on the type of veneer and the application. Local building codes and professional guidance should be consulted for specific installation requirements. For more information, please reach out to a Mutual Materials sales representative.
