

MUTUAL MATERIALS®

*Western Ledge*

*Whisper Canyon Western Ledge*

Every angle is just *right*.

A mix of slender and thick, rectangular and square, with clean edges and a more uniform face depth, Western Ledge is a dry stack stone with a slightly modern flair.

## INSTALLATION

Sunset Stone's Manufactured Stone Veneer installation involves preparing the surface, applying mortar, and then placing the stone veneer. The installation process may vary depending on the type of veneer and the application. Local building codes and professional guidance should be consulted for specific installation requirements. For more information, please reach out to a Mutual Materials sales representative.
