

# Mutual Square 44" Fire Pit

**Size:** Outside Diameter: 44"x 44"  
Inside Diameter: 28"x28"

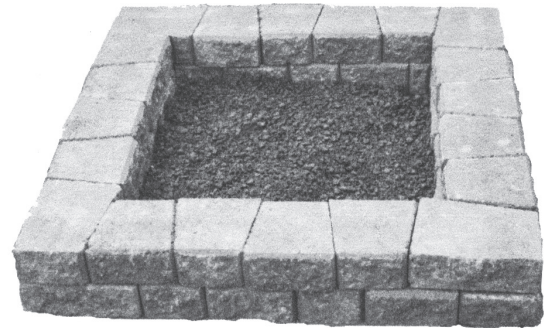

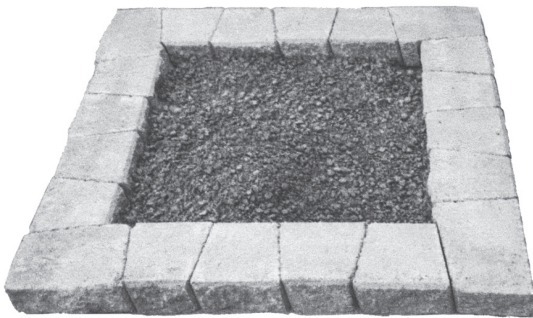

**Piece Count:** 8" Caps: 48  
Corner Units: 12

Fire pits should only be built over a **non-combustible surface** like concrete patios or a compacted gravel base.  
**Never install a fire pit over a wood deck.**

## Instructions

1. Prepare the fireplace location by establishing a level surface about 56" x 56".

2. Transfer the top layer of the fireplace to desired location. This will become the bottom layer of the fire pit.
3. Transfer the second layer. Note the 11-inch side of the corner block will now be over the 6.5" side of the corner block beneath.

4. Transfer the third layer.
5. Level two bags of base rock or sand into the center of the pit and it's ready to enjoy!
